Africa Teen Tech Festival '23

THEME:

Technology Careers and the Future of Learning

Venue:

Landmark Event Centre,
Lagos state

11th, 2023

May

About ATTF

Are you ready explore technology careers and the future of learning?

ATTF, powered by Imperial Educational Technology and EduFocal, is a technology and innovation event that aims to facilitate conversations about career trajectories in the tech industry, and to expose teenagers, educators, and professionals to the future of learning. Through our career counseling sessions, young adults can receive guidance on how to navigate the job market and identify career paths that align with their interests and talents.

Our panels provide valuable insights on how to integrate technology into the classroom to enhance learning and engagement, and our conference offers attendees the opportunity to connect with industry leaders, educators, and policymakers, and to gain insight on how to prepare for the future of work.

Powered by

Our Proposition

This generation of young adults and teenagers are predominantly digitally native. Our goal is to channel this new digital awareness in the right direction and turn interests into valuable skills and passion. We aim to achieve this by first, driving the use of technology in the schools and institutions of learning in order enhance collaboration and spark keen interests in students, then build their skills and enhance participation in tech related activities while introducing them to possible career outcomes.

Key Success Factors

Based on the Key components of the program, some critical success factors we envision are necessary:

1

Teens will be exposed to the world of innovation/creativity

2

Teachers will be exposed to 21st Century Teaching Practices

3

Improve awareness to Drone Technology

4

Practical training and Capacity Development

5

Career mentoring and continuous monitoring

6

Exposition to the future of classroom

Target Audience

Students

(High school and undergraduate)

01

Teachers

02

Ministries of Education

03

School Administrators

04

Tech and IT Firms

05

School Counsellors

06

Policy Makers

07

HR Professionals

08

NGO's

09

The EduFocal Teach with Tech Challenge

The EduFocal Teach with Tech Award celebrates teachers' innovative use of technology to enhance their students' learning experience. This award recognizes educators who have successfully integrated technology into their classroom or subject matter to engage students, facilitate learning, and improve academic outcomes, even with limited digital infrastructure. This award salutes the resourcefulness of teachers who have managed to create transformative learning experiences that bridge the digital divide with innovative methods such as offline digital resources, mobile technologies, WhatsApp Q&A, and more.

Students will nominate their favourite teachers to win prizes and recognition.

Through this award, EduFocal seeks to inspire educators to explore and incorporate new technologies in the classroom to prepare students for success in the digital age, empowering teachers to innovate and inspire the next generation of learners.

THE PRIZE

1st prize
500K.
Learning Tablet.

2nd prize
250K.

3rd prize
100K.

Career guidance and counselling

These sessions are designed to aid teens and young adults in making informed decisions about their education and career paths. Teens will hear from successful tech professionals and entrepreneurs in fields as varied as coding, game development, graphic design, digital marketing, blockchain engineering, tech recruitment etc.

We strive to spark interest and empower teens as they embark on a journey to explore the ever-evolving and thrilling field of technology. Our aim is to provide inspiration and guidance to help them discover their passions and carve out a fulfilling career path in this exciting industry.

Our Delivery Partners

Develop initiatives, projects, and products across multiple sectors using technology as our core horizontal framework to drive and scale efficiency across several verticals such as Education, Health, Finance, Workforce Development, and Digital Literacy.

EduFocal leverages technology and expertise to provide scalable education solutions. Our services include supporting teachers in delivering high-quality lessons and monitoring student progress, assisting companies in providing staff training, and aiding governments in implementing digital transformation initiatives.

Our vision is to power a world of learning without boundaries, providing the tools and solutions people need to become the best version of themselves.
